

type of nozzle: excentric hollow cone - nozzles HEI

nozzles without spin employment with internal thread and replaceable mouthpiece

characteristics of nozzle

hollow cone spray patten, no installations
blockage-insensitively right-angled connection

application

gas and air washer
cooling
washing and cleaning
degreasing
rinses
dust suppression
process engineering

material

brass
steel
high-grade steel
plastic
other on request

Plastic nozzles can exhibit other SW

order example: (threads - type - spraying angle - material) 1/4 " - HE 2 - 30° - steel

B = orifice diameter, E = closest cross section, the drilling vary with different spraying angles easily

The following spray angles stand to the selection: 60°-90°-120°, related to a pressure of 3 bar
